## EDUCATION

---

Keimyung University & DigiPen Institute of Technology | Daegu, South Korea / Redmond, WA

B.S. in Real-Time Interactive Systems | GPA: 3.9/4.5

May 2026

Relevant Courses: Data Structures (CS280) / Computer Graphics (CS250) / Game Project (GAM150/GAM200/GAM250)

## TECHNICAL SKILLS

---

Programming Languages: C, C++

Engines: Custom Engine based on OpenGL

Interpersonal Skills: Team Spirit, Communication, Respect

## PROJECTS

---

### Rescook | Producer

September 2025 ~ Present

- Cooking-themed Stage-based Adventure Game
- Collaborated with a team of 4 and directed team operations as the producer, managing task distribution, project milestones, and acting as the representative speaker for major project presentations and milestone pitches.
- Spearheaded the architectural transition of the base CS230 engine from raylib to a custom OpenGL-integrated framework, taking full ownership of the engine's core systems and rendering pipeline.
- Streamlined team productivity by implementing a weekly sprint meeting structure to clarify team milestones and goals.

### OMG Corp. | QA

March 2025 ~ June 2025

- Point-and-click Tycoon Survival Game
- Collaborated with a team of 4 and acted out as the representative speaker for major project presentations and milestone pitches.
- Engineered a flexible point-and-click player movement system by integrating Dijkstra's path-finding algorithm across a custom node-based map network.
- Continuously tested the game to identify and fix bugs, ensuring a stable gameplay experience.

## LEADERSHIP EXPERIENCE (DO THIS!) ONCE YOU GET A JOB YOU WON'T NEED TO BUT FOR NOW....

---

### Keimyung University | Student President | Daegu, South Korea

- Represented the student body of the department, actively managing communications between students and faculty.
- Organized, planned, and directed department-wide events such as seasonal LAN Parties and DigiPen Game Engineering Department Vacation Game Jams, as well as orientations for freshmen within 2025 and 2026.
- Fostered a collaborative academic environment and supported fellow students in their academic journeys.
